EDUCATION FOR SUSTAINABLE DEVELOPMENT:

curricula, capacity, ICT and stakeholder collaboration to support green & blue infrastructure and nature-based solutions

New developed course:

- ECTS: 3.0
- 16 weeks
- 144 hours
- Full online
- For bachelor level
- Open for life-long learners
- Lecture: 16 videos
- Laboratory: 32 hours

Aims and objectives:

The course aims to give a broad introduction to Education for Sustainable Development practice and knowledge how to implement SDGs in education. This includes an analysis of the phenomenon of sustainable development and how the concept is reflected in education policy documents and in educational practice contexts.

The authentic tasks:

- Discuss and problematize key concepts and perspectives within Education for Sustainable Development;
- Account for historical change in discourses and policies regarding Education for Sustainable Development;
- Critically discuss didactic opportunities and challenges in relation to Education for Sustainable Development;
- Compare and discuss practices in Education for Sustainable Development in different contexts;
- Analyze and compare the implementation of ESD in various contexts (such as at the school, organizational, or national level).
