REPORT on the use of equipment purchased
by Khovd State University,
MONGOLIA, under the URGENT project

The project uRGENT helped us not only identify gaps in the existed curricula and develop the list of e-courses to be developed by KHU under the project, but also identify the equipment that would suit our students' and teachers' current needs.

Thus, the following equipment was purchased, put into operation and used under the Erasmus+ URGENT project.

Equipment are using to provide **video conferencing, seminars, training and other events** at the Training activities.

The Department of Geography and geology is authorities in charge of this property. All equipment is stored at main building KHU located at the room 411,318 and 104 training rooms.

Equipment	Specification	Number of using students/week
Drone	DJI go pro #app, extra batarei, bag and car charger with memory +128 gb	60/week
