

# URGENT research framework for a partner institution

**The name of the partner organisation:**

KHovd state university

**Contact person and e-mail address:**

[Amarzaya2000@yahoo.com](mailto:Amarzaya2000@yahoo.com)

[bayarhuub@yahoo.com](mailto:bayarhuub@yahoo.com)

**Departments or other academic units at your organisation concerned with URGENT-related topics:**

1. Department of geography
2. Department of biology
3. Department of chemistry

**Current and past projects implemented at your institution and concerned with URGENT topics:**

*Add as many lines as necessary*

Project title	Funding agency	Project topics concerned (2-3 keywords)	Type of the project (research, education, mobility, capacity for the organization or external stakeholders building, promotion etc)	Possible links to URGENT (joint activities, agreements, ...)
History of Khovd city	Mayor of Khovd city	Old Khovd history	Promotion	Promotion of urban nature
Small encyclopedia of Khovd city	Mayor of Khovd city	City tour destination explain	Promotion	Urban management

**PHD Programs available**

N/A

**Topics of PhD thesis (or other graduate works if you do not have a PhD program)**

N/A

**Key personalities at your organization publishing on URGENT -related topics:**

Name	Key words (2-3) describing research interests	Personal webpage, if applicable
Chuntai Bilegtmandakh	Regional study, local settlement	N/A
Dugersuren Battsetseg	Urban soil ecology	N/A
Erdene Amarjargal	Urban demography	N/A

**Current research profile of the organization in relation to URGENT topics:**

*Urban green space planning, urban demography, urban settlement area re-planning, tree planting and cultivation technology.*

**Ambitions of the organization (in terms of research topics) or aspired activities in relation to URGENT topics (i.e. research collaboration agreements, phd supervision, internships for phd students to Eu partners)**

*In the Khovd state university master plan /2017-2024/ mentioned to Develop Joint research of local settlement socioeconomic conditions and student mobility and joint supervising diplomas of master and bachelor.*

**Obstacles and barriers hampering the aspired developments**

*Depending of socioeconomic condition /students prefers to study in capital city/ the enrollment of KHU is decreasing.*

**Enabling conditions and positive factor behind your current successes in relation to URGENT -related research developments, and/or making you hopeful about your ambitions:**

The design of the URGENT related activities following core components: To elevate the learning opportunities for high potential learners and unleash their potential; To collaborate as a profession and use collective wisdom to design practices and models that have an impact; To innovate “next practices” by using innovation methods and design thinking.

**Specific capacities you want to develop to reach you aspired URGENT-related research goals, such as equipment, training for academic or technical staff, access to international databases, external experts support or PhD supervision etc etc**

From the outset, engaging students to participate in the URGENT related study will see as the most crucial practical challenge to be overcome. Participating countries and HEIs therefore will adopt a range of different strategies to ensure high participation rates. In many cases, HEIs relied on a multi-faceted

strategy of student recruitment involving communication and marketing as well as incentives. Students were often sent letters and emails of invitation, received phone calls and text messages, were invited to seminars or received information during class, and many HEIs also will use brochures, flyers and posters for promotion.

**Are there any national research or development policy objectives that support your current or aspired URGENT-related research developments? Please expand on this, if so**

*Vision of Mongolia 2050 /strategic doc/*

*Green development program of Khovd /2020-2025/*

*Sustainable development approaches of Mongolia 2030*

Green development strategy of Mongolia

**What are specific -enabling conditions or obstacles for the development of research training at your organization – in general, and in URGENT-related fields?**

N/A
